## DEPARTMENT OF NATURAL RESOURCES

### Department Operations - Section 6.200

Page 2

This section contains the Director's Office, Ombudsman Program, Communication, Policy, Legal and Administrative Support functions. Created in the FY 2006 reorganization, the Department Operations Division also coordinates with the Environmental Improvement and Energy Resources Authority and Petroleum Storage Tank Insurance Fund Board. Administrative Support functions include contract audits, budget development, financial resources allocations, internal audits, accounting, human resources, procurement, grants management and general services. The Department Operations Division also coordinates with the Missouri Department of Transportation in reviewing highway environmental impact statements. Finally, this section provides funding for river association dues to the Upper Mississippi River Basin Association and Missouri River Basin States Association.

**Legal Base:** State Statute 640.010 RSMo

**Funding Source:** General Revenue; Federal –Various; Other – Cost Allocation Fund, State Park Earnings, DNR Revolving Services, Solid Waste Management, NRP-Air Pollution Permit Fee, Soil & Water Sales Tax, Water & Wastewater Load Fund, Hazardous Waste Fund

**Water Resources Program - Section 6.210**

Page 34

The Water Resources Program provides information for Missouri's comprehensive water needs by examining surface and groundwater resource use and availability. The program provides technical support in interstate water concerns, monitors drought and floods, inventories wetlands and water resources, and records the major users of water in the state. Water Resources administers provisions of Missouri's Dam and Reservoir Safety Law, regulating all nonfederal, nonagricultural dams 35 feet or higher. Water Resources also investigate water supply issues, collect and distribute groundwater-level data from a statewide network of observation wells, evaluate all public water supply bedrock wells, and complete regional water assessments that evaluate water problems, needs and opportunities.

**Legal Base:** State Statutes Chapter 236.400-236.500 Dam, Mills & Electric Power; 256.060 Survey of water resources; 256.200 Commission to collect and coordinate water data; 256.400-256.430 Water Usage Law; 256.435 Multipurpose Water Resources Program; 640.400-640.430 Negotiation of interstate compacts, surface and groundwater monitoring, state water resources plan and special water protection areas; Chapter 257 Water Conservancy Districts

**Soil and Water Conservation Program - Section 6.215**

Page 69

The Soil and Water Conservation program receives its funding through ½ of the 1/10¢ Parks and Soils Sales Tax. The program's primary mission remains soil erosion and conservation. The program maintains a presence in each Missouri County through the 114 Soil & Water Conservation districts and commissions, and operates under the overall direction of the Soil & Water Conservation Commission. Staff processes between eight to ten thousand soil and water conservation project applications totaling approximately \$30 million annually. Additionally, staff conducts soil surveying, mapping, and interpretation for hundreds of thousands of acres across the state annually.

**Demonstration Projects:** Federal funds used for soil conservation demonstration projects. **Cost Share Grants:** Provides up to 75% of the cost to install conservation measures or purchase conservation equipment. **Loan Interest Share Program:** Refunds the indirect costs of interest on loan used for soil conservation, including projects not eligible for cost share. **Special Area Land Treatment (SALT):** Since 1986, the SALT Program has focused on Missouri's soil erosion problems on a watershed basis. Working locally through soil and water conservation districts (SWCDs), landowners that farm in a targeted watershed can take advantage of the resources available through the program. Before FY 2000, SALT projects focused mainly on reducing only one aspect of non-point source water pollution – sedimentation resulting from soil erosion off agricultural land. During FY 2000, a new type of SALT project has evolved which focuses more intensely on improving water quality in specific watersheds by reducing all forms of agricultural non-point source (Ag NPS) pollution - including sedimentation. Goals of the new AgNPS SALT projects include, but are not limited to, reducing pesticide and nutrient runoff from cropland, improving pasture management, reducing sedimentation from agricultural land, improving animal waste management, protecting and enhancing riparian corridors, and raising awareness of agricultural non-point source water pollution issues. **Grants to Districts:** Provides funds to the 114 Soil and Water Conservation Districts to hire management, technical and clerical personnel and for other costs associated with each office (health & retirement benefits were added to the appropriation in FY 2001). **Research Grants:** Provides grants to colleges and universities for research on soil conservation.

**Division of Environmental Quality – Water Protection Program - Section 6.220**

Page 90

The Water Protection Program combined the former Water Pollution Program and Public Drinking Water Program in FY 2006 and further combines the Wellhead Protection Program in FY 2007. To ensure safe drinking water, the Program provides financial and technical assistance to public drinking water supplies, sets standards for safety and testing, issues permits and conducts necessary enforcement actions. Wellhead protection activities include overseeing the proper construction of all wells, including water, oil, gas, exploration, heat pump and monitoring, in order to better protect groundwater resources. To ensure clean water, the Program classifies water bodies, issues permits to wastewater treatment discharges, provides technical and financial assistance, permits Concentrated Animal Feeding Operations (CAFOs), and trains and certifies operators at Missouri's water supply and water treatment plants.

**Water Quality Study Contracts & Grants - Section 6.220**

Page 90

**Water Quality Studies:** – Grants or contracts are provided to develop management programs that will identify best management practices to reduce pollution of Missouri’s streams, lakes, and rivers from non-point sources. In general, nonpoint source projects provide information, education, training, technical assistance, demonstration, project-specific monitoring and water quality restoration. Funds are also awarded for projects that demonstrate or promote a watershed approach in National Pollutant Discharge Elimination System (NPDES) permit program activities. **Drinking Water Analysis:**– This section provides for the testing of water samples taken from Missouri’s 1,450 water systems and 1,300 other public water supplies. Samples are tested by the DNR lab or through contractual agreement with an outside lab. Testing for the presence or absence of contamination is necessary to comply with the federal drinking water regulations.

**Division of Environmental Quality – Air Pollution Control - Section 6.220**

Page 121

The Air Pollution Control Program, under the overall direction of the Air Conservation Commission, is responsible for the state's air quality and compliance with the Federal Clean Air Act. The program conducts the following implementation strategies:

1. Conduct annual emission inventory surveys, perform emission verification, emissions inventory questionnaire (EIQ) audits, training and assistance.
2. Issue construction permits and federally enforceable state operating permits, issue preconstruction permits, conduct ambient air quality monitoring.
3. Conduct ambient air monitoring in the non-attainment area (St. Louis metro) and attainment areas, conduct inspections of polluting facilities.
4. Implement emission banking program, permit training and application assistance to small and large businesses, promote use of Env. Mgmt Systems.

**Legal Base:** Federal Clean Air Act (1990), State Statute 643.010-643.210 Prevention, abatement, and control of air pollution, 643.225-643.265 Asbestos Abatement, 307.366 Basic vehicle emission inspection program

This section provides funds to four local governments to operate air pollution control programs and to enforce the Missouri Air Conservation Law. The local governments are Springfield-Greene County, St. Louis City, St. Louis County and Kansas City. Local governments are required to provide a match in local resources. Grants are also given to other entities (e.g.: East-West Gateway Coordinating Council & American Lung Association) to carry out activities that will reduce air pollution. This section also provides funding for asbestos grants to local air pollution control agencies.

<b>Legal Base:</b>	Chapter 643 Prevention, Abatement, and Control of Air Pollution; 643.225-643.265 Asbestos Abatement
<b>Funding Source:</b>	Federal – Environmental Protection Agency (Air Pollution); Other – Natural Resource Protection (Air Pollution Permit Fee Subaccount, Air Pollution Asbestos Fee Subaccount)
<b>FY 2012 W/H:</b>	\$1,258,053 – Other funds

**Solid Waste Management Loans & Grants - Section 6.220**

Page 178

Solid Waste Management District Grants return a portion of the fees collected to fund local solid waste management plans. The districts distribute 40 percent of these grants to implement projects they have identified in their solid waste management plans, with the remaining 60 percent used to help fund city and county waste management projects. Waste Reduction and Recycling Projects provide financial assistance through a competitive application process. Anyone involved in solid waste reduction and recycling in Missouri may apply for financial assistance. The program is beginning a transition from the current grant program to a targeted grants and loan program, focusing more on statewide issues and target areas and materials where there is evidence of a specific need. Waste Tire Playground Cover and Surfacing Grants are available for the cost and delivery of waste tire material for playgrounds, running tracks, walking trails, or other surfacing projects approved by the department.

Page 207

**Coal Mined Land Reclamation Projects:** This section provides funding to complete the reclamation of sites where coal-mining permits have been revoked and the bonds forfeited are insufficient to cover the cost of reclaiming the property. Funding for this section comes from a tonnage assessment on current coal production of \$.45 per ton on the first 50,000 tons and \$.30 per ton for the second 50,000 tons in each calendar year at each coal mine.

**Land Reclamation Bond Forfeitures:** This section provides funds to allow the Land Reclamation Commission to spend receipts from bond forfeitures on the reclamation of sites where the surface mining permits have been revoked.

**Abandoned Mined Lands Reclamation:** This section provides federal funding to allow the Land Reclamation Commission to design and reclaim abandoned mine lands left unclaimed before the passage of Public Law 95-87 in 1977. Funded for this section comes from the federal Abandoned Mine Reclamation Trust Fund, which is supported by a \$.35 per tone fee on surface coal and a \$.15 per ton fee on underground coal.

**Small Operator Assistance Program:** This section provides grants to small coal operators (<300,000 tons/year). There are 3 active coal operators in Missouri that qualify for this assistance. This appropriation would enable the Land Reclamation Program to assist one small operator should the company decide to expand operations and require an additional permit.

**Legal Base:** State Statutes 444.140, 444.368, 444.570, 444.775, 444.778 (Bonds); 444.960 – 444.965 (Fees for Coal Mine Land Reclamation Fund); 444.760 – 444.790 (Land Reclamation) RSMo

Page 290

This section provides funding for the general administration of the Petroleum Storage Tank Insurance Fund. This section also provides for payment of valid claims and contractual services related to the processing of claims for the Petroleum Storage Tank Insurance program. Revenues from the fund are derived from two sources. First, the Board of Trustees sets a surcharge on petroleum products capped at no more than sixty (changed in 2001 legislative session) dollars per transport load. Second, the Board sets an annual fee from each participant in the program of at least one hundred dollars per year but not more than three hundred dollars per year. The Department of Natural Resources is authorized to provide staff support to the insurance program.

**Legal Base:** State Statutes 319.100 – 319.139, 319.129 (Petroleum Storage Tank Insurance Fund), 319.132 (Surcharge on Transport Load), 319.133 (Tank Fee) RSMo

This section provides general management and planning for Missouri's State Parks and Historic Sites. State Parks and Historic Sites are supported by the Park Sales Tax, a one-tenth of a cent sales tax which has been adopted by the voters of Missouri three times. One-half of the sales tax proceeds support Missouri's State Parks and Historic Sites. Park Sales Tax funds are limited to expenditures on "the acquisition, development, maintenance and operation of state parks and state historic sites in accordance with Chapter 253, RSMo, and for the administration of the laws pertaining thereto." The most recent 1996 election enacted the sales tax effective November 8, 1998 through November 8, 2008.

Page 333

This section provides for the distribution of the former Federal Land and Water Conservation Funds, which was discontinued in FY 1995 and funds for prior year projects ran out in FY 1999. Annually, Congress debates whether to restore this funding. This appropriation also accounts for distributions to local political subdivisions from the National Recreation Trails Fund Act. Funding for this program comes from the federal non-highway recreational vehicle fuel taxes, and provides funds for the development and maintenance of recreational trails. The sunset on the National Recreation Trails Fund Act is FY 2004.

**DEPARTMENT OF NATURAL RESOURCES**

**Division of State Environmental Improvement & Energy Resources Authority (EI ERA) - Section 6.340**

Page 484

The EI ERA is an independent self-supporting quasi-governmental agency (body corporate and politic), which conducts environmental and energy research and development and offers financial assistance to any individual or business for qualifying environmental and energy projects. The authority provides the financial assistance through the issuance of tax-exempt bonds. This request is for funds to inform the legislature of the authority's activities and budget approach and to allow the EI ERA employees to participate in the State Retirement System.
